

GOLF BALANCE TRAINER + 35 %

Using the Golf Balance Trainer:

PGA pro - Peter Eisenhuth (Photo 1-2)

„The Golf Balance Trainer improves the game of golf remarkably. With this golf trainer, every player will improve, achieve more precision, and hit considerably further during a drive. Up to 35% more distance is possible with this training device. The golfer can practice what his golf instructor taught

PGA pro - Darren Scholes (Photo 3-4)

him at home or in the office. Right- as well as left-handed individuals (it can be adjusted for both) can practice with the Golf Balance Trainer to increase movement coordination and to specifically train certain muscles.“

more distance*

- Increased precision
- Improved swing balance
- Better legwork

A tip from

Dr. Christian Reichardt, MD

„Little effort, big results - a must for every recreational and professional golfer.“

Practice at home or in the office

Train the largest muscle groups in the golf swing. Practice perfect footwork. At last there is a simple training device for perfectly coordinated legwork in golf.

Do you want significantly more distance and precision, and improved swing balance? Then try the Golf Balance Trainer. Practice daily, weekly, or whenever you want and you will *achieve 35% more distance and precision in your golf game while significantly reducing your handicap.

Order the Golf Balance Trainer now - in selected retail stores, in our online shop, or use the attached order form - so that you can optimally prepare for your next round of golf, at home, in the office, or wherever you want.
